1. INTRODUCTION

Congratulations! Your paper has been accepted for journal publication. Please follow the steps outlined below when submitting your final draft to the JECA Press. These guidelines include complete descriptions of the fonts, spacing, and related information for producing your proceedings manuscripts. Please follow them and if you have any questions, direct them to the production editor in charge of your journal at the JECA.

2. Formatting your Paper

All printed material, including text, illustrations, and charts, must be kept within the parameters of the 8 15/16-inch (53.75 picas) column length and 5 15/16-inch (36 picas) column width. Please do not write or print outside of the column parameters. Margins are 3.3cm on the left side, 3.65cm on the right, 2.03cm on the top, and 3.05cm on the bottom. Paper orientation in all pages should be in portrait style.

3. MAIN TITLE

The main title (on the first page) should begin 1 3/16 inches (7 picas) from the top edge of the page, centered, and in Times New Roman 14-point, boldface type. Capitalize the first letter of nouns, pronouns, verbs, adjectives, and adverbs; do not capitalize articles, coordinate conjunctions, or prepositions (unless the title begins with such a word) (e.g. **A Comparative Study of Privacy Protection Methods for Smart Home Environments**). Please initially capitalize only the first word in other titles, including section titles and first, second, and third-order headings (for example, "Titles and headings" — as in these guidelines). Leave two blank lines after the title.

4. Author Name(s) and Affiliation(s)

Author names and affiliations are to be centered beneath the title and printed in Times New Roman 12-point, non-boldface type. (See example below)

4.1. Affiliations

Affiliations are centered, italicized, not bold. Include e-mail addresses if possible.

For example:

Author¹, Author² and Author³

¹*Affiliation*

²*Affiliation*

³*Affiliation*

¹*Email*, ²*Email*, ³*Email*

4.2. Corresponding Author

Corresponding author should have an asterisk sign (*) if possible, after the corresponding author's name. The Corresponding author (e.g., *Corresponding Author) label should be appeared at the footnote section of the first page of the paper, Times New Roman in style and 10 in font size.

5. Second and Following Pages

The second and following pages should begin 1.0 inch (2.54 cm) from the top edge. On all pages, the bottom margin should be 1-3/16 inches (2.86 cm) from the bottom edge of the page for 8.5 x 11-inch paper; for A4 paper, approximately 1-5/8 inches (4.13 cm) from the bottom edge of the page.

6. Type-style and Fonts

Wherever Times New Roman is specified, Times New Roman may be used. If not available in your word processor, please use a font closest to Times New Roman that you have access to. Please avoid using bit-mapped fonts if possible. True-Type 1 fonts are preferred.

Be sure your text is fully justified, flush left and flush right. Please do not place any additional blank lines between paragraphs.

7.1. Tables

Place tables as close as possible to the text they refer to and aligned center. A table is labeled *Table* and given a number (e.g., **Table 1. Sample Datasheet with Attributes in Linguistic Term**) it should be numbered consecutively. The table label and caption or title appears 9pt space above the table, 6pt space after the text or paragraph if any; it should be uniform fonts and font size, and use 11pt font size and Helvetica style, capitalized similar to paper title, aligned center and bold face. Sources and notes appear below the table, aligned left. All tables must be in portrait orientation.

For Example:

Table 1. Table Label

7.2. Figures

Place figures as close as possible to the text they refer to and aligned center. Photos, graphs, charts or diagram should be labeled *Figure* (do not abbreviate) and appear 6pt space below the figure, 12pt space before the next text or paragraph, and assigned a number consecutively. The label and title should be in line with the figure number (e.g., **Figure 1. 7.3. Equations

Including symbols and equations in the text, the variable name and style must be consistent with those in the equations. Equations should be indented at the left margin and numbered at the right margin, equation number is enclosed with open and close parenthesis () Time New Roman in style and 11pt font size. Define all symbols the first time they are used. All equation symbols must be defined in a clear and understandable way.

8. First-order Headings

For example, “**1. Introduction**”, should be Times New Roman 13-point boldface, initially capitalized, flush left, with one blank line before, and one blank line after.

9. Footnotes

Use footnotes sparingly (or not at all) and place them at the bottom of the column of the page on which they are referenced to. Use Times New Roman 9-point type, single-spaced. To help your readers, avoid using footnotes altogether and include necessary peripheral observations in the text (within parentheses, if you prefer, as in this sentence).

These should be brief and placed at the end of the text before the references.
